General:

This specification covers a rescue/service body intended for use in municipal fire department duties. Only the major details of the unit are listed. It is the supplier's responsibility to deliver a fully equipped unit with compatible components to provide dependable service. Where minimums are given the unit must meet or exceed the capacity, size or performance specified. Unit must be supplied with suitable components to comply with the following specifications.

Weight:

Must be suitable in size and weight to be mounted and safely operated on a current model year dually 4x4 chassis (60 ca) with minimum GVW rating of 19 500 pounds.

Box Design:

- Aluminum construction
- All doors 3 per side and 1 rear door are Amdor roll up or equivalent.
- 110 inches high x 94 inches wide.
- Fixed roof.
- .012" aluminum compartment sides and bottoms.
- .125" aluminum checker plate headboard and front rock guards.

Rear Bumper Area:

- Shall be constructed to not interfere with trailer hitch or towing capabilities.
- Supply and install an HD cargo bed in rear load space.
- Cargo bed capacity minimum 3000 pounds.

Prep and Paint:

- Body exterior painted one colour urethane enamel.
- Dealer paint code will be supplied to match.
- Compartment interiors and aluminum checker plate to remain in natural aluminum finish.
- Epoxy primer and polyurethane top coat finish.

Installation:

- Body installed onto customer supplied cab and chassis.
- Mud flaps installed behind rear wheels.

Electrical:

- Brake, tail, turn signal, reverse lights to be approved for Ontario standards
- One 55" Whelan or equivalent light bar with
 - 4 corner linear super LED light heads (red)
 - 6 front facing linear super LED light heads (red)
 - 2 front facing super LED light heads (white)
 - 2 front facing super LED work lights
 - 8 rear facing super LED light heads (red)
 - 2 driver and passenger super LED alley lights
- 1 - Epsilon siren amplifier or equivalent.
- 100 watt speaker and mount.
- 1 - Whelan super LED traffic advisor with cable and control head, or equivalent.
- 2 - 600 linear super LED flash, red with flange to mount on driver and passenger side of body.
- LED lighting in all compartments.
- 2 - IONR super LED red grille lights

Warranty:

Provide any body and paint warranties with the tender.

Descriptive Literature:

The Bidder shall enclose with their Tender, one (1) complete set of drawings and specifications so that the preceding specifications can be checked.

Payment:

Unit will be paid for in 30 days from date of delivery to the municipality.

The Municipality of Highlands East reserves the right to reject all or any bids. The lowest or any tender will not necessarily be accepted.
